# OLAA LANDS Sure Cure

# Discussed by a Surveyor.

Great Demand for the Lots -Long Term of Residence Required. Close Questioning Settlements.

#### (Hawaii Heraid.)

The Land Department of the Government has practically decided upon a to be opened in Olaa. Owing to the enormous demand for holdings and the possible desire on the part of some of the applicants to realize largely and promptly the lands will probably be sold at auction to the highest bidder and a clause will be inserted in the agreements providing for a five years' actual residence. Mr. Baldwin admits that this will probably be the plan adopted, but definite instructions to that effect have not yet been received.

He said to a reporter for the Herald: When I was in Honolulu a couple of weeks ago I had a conversation with Land Commissioner Brown regarding the opening of the lands in Olaa, and he suggested the adopting of the same plan that is in force in Hamakus, and I think the lands will be sold to the highest bidder to be paid for in cash at the time of purchase, or on the same plan as the right of purchase leases where interest only on the amount is collected during the term specified. The five years' residence clause will be inserted so that speculation can be, to great extent, avoided. A man can out land under the present terms and pu. on a 'dummy' to fill the require-ments of the law for two years, but it may be difficult for him to do this for five years. It is this 'dummy' business the Government will try to stop. There is being printed in Honolulu a form containing a list of questions to be inswered and sworn to by holders of right of purchase leases as the Government intends to ascertain as near as possible just how closely the law is being carried out. These answers will include the name of the holder, his residence and place of business, when he went on the land, how long he resided there and such other information as

may be deemed necessary.
"Some people have an idea they can live and do business in Hilo or else-where and still hold their land; this gram was postponed or abandoned on is not correct. A man with a wife or family might live in Hilo and attend to his business here and hold his land provided his wife or his family had actually resided on the land he had secured under lease. Two places of resdence will hardly fill the bill.

"Another mistake has been made by people right here in Hilo. They own within the past week. homes in the town and have taken up Government land in Olaa or Puna upon as the agreements provided that they call a surgeon, must not be the owners of other lands. take to their cost.

To the Public: At least once a year all civilized nations set apart one day sacred to the memory of those who have fallen in defence of the nation.

The patriotic societies of the city will, as usual, pay respect to the dead and in order that the public may know the soldier and sailor dead, a small flag will be placed on each grave. The people will confer a great favor on the organizations having this celebration in hand if they will bring, send or cause to be sent, flowers for the graves
